

Sinclair Broadcasting uses the public airwaves free of charge, and is required to serve the public interest. I believe this huge media conglomerate is now violating that trust and abusing its power by engaging in electioneering for its own self-interest. Allowing these media giants to acquire more and more local broadcast outlets has been a concern of many Americans. The recent actions of Sinclair, and their stated intent to air "Stolen Honor" (without equal time), has now created the fascist situation that we worried might occur. I implore you to take action and correct this situation before any more damage is done to our country.  
Sincerely.  
L. Randy Weidenbusch
